An obvious mobile port that handles quite terribly on PC. controller was never meant to be used for this, as evidenced by the mini games which clearly indicate it was intended for a touchscreen. also adding to the fact that if you hit any key on your KB while using a controller in a mini game, the game freezes up. refunded promptly.

these also aren't even ducks, these are chicks.. I really like this game. This is a nice RPG and an amazing addition to the series. Would recommend.. This is a good game to pass a little bit of time, but there are some bugs and glitches that need to be fixed still, especially the one where all your gear downgrades to lvl 2 for no reason, making it hard to beat the game. I wish the creator actually addressed these issues instead of sitting on his couch. 7/10.. This game is absolutely adorable and pretty fun! However, it does seem to crash quite often, especially when changing equipment before starting a battle. It is slightly annoying but doesn't ruin the game completely. 4.5/5 for sure!

Edit: So, I got quite a bit further into the game. In the desert area where you level your stats from 60 up to 80, I noticed quite a huge problem. The health mini-game is unplayable. Very unplayable. Why? When you swipe right to send a bomb away, the game crashes, meaning you can't level your health up unless you get lucky enough to get a + level on the wheel that appears sometimes. I bring the rating down from a 4.5/5 to a 3/5, almost a 2.5/5. The game is still very adorable, however.. I do not recommend this game because it costs money and the game ends quickly about 3 hours of gameplay and once you get the torch you pretty much won the game.. This is fun if you are a fan of the Ducklife flashgame series. Not too hard, and feels just like the series as a whole but with fighting instead of racing. A simple yet fun game.

However, there are glitches and it crashes frequently. And like the other reviews said, there are issues that need to be fixed. There are consistent bugs that happen. The aforementioned issues can make the game near unplayable. If you are ok with dealing with the issues, it's worth a try.. Game is horribly optimized for the PC. Half the time it won't even launch properly and randomly experiences slowdowns during the game that require it to be restarted to be fixed.. This is amazing but there's a bug where it downgrades some of your items and takes off your shirt when you close and re-open the game. but it's really fun shooting ducks with a laser gun. OK, so I played all the other duck life (yes, including space) and this one? I mean it's good and all, but it just doesn't fit in. This game is very good! It's very addictive and the PVP or rather DVD (duck vs duck) makes it more addictive! This game is fun! My favorite mini-games to increase stats are the mountains health training and the desert speed training. The graphics are good, but the sound sometimes glitches out and the snakes in the forest defence training disappear. But, that doesn't stop me from loving this game! This game is very recommended from me.

It's a great game but it's not worth the price.

6/10. short but fun. The graphics are great and all but when the ducks hit you 3 times in a row for 360 dmg which is unfair since they hit you 3-5 times a round when you hit 1-3 times a round, when it should be you hit the duck, the duck hits you, you hit the duck, the duck hits you. Also do only 146 dmg once plus like a couple specials you can't win even if your max in your dojo.. The audio messes up for me, also THE TURN SYSTEM SUCKS, the duck you are battling attacks 2 TIMES IN A ROW!! Really hard for me, the game gets boring after a while, and not worth the price. It's exciting at first, but then it gets boring.. Great game, mechanics were fair, graphics were great, gameplay was smooth, and overall had an enjoyable time playing! Would give the game around an 8.7/10.. it so bad!!!!!!!!!!!! i try to equip a weapon IT JUST KICKS ME OUT. but good gameplay. REFUUUUUUUUUUND!
